RE Unit	**Ways of Knowing (icons)**	**Builds on**	**Curriculum Rationale**	**Leads on**	**National Statement of Entitlement:**
L2.1 What might Christians learn from the Creation narrative?			This unit explores the creation story at the start of the Bible. It gives opportunities to deepen understanding of key messages in the story and ways in which different Christians might take different things from the creation narrative. To investigate this area, we will need to look at the creation story, alongside different translations of the text from the Bible. We will think about some questions people have about what God is like in the story, and find out what a range of Christian people do and believe due to this story and their arguments for doing so. Throughout the lessons, we will consider whether what we learn matches what we expected to find out and if this may affect the way we		

			approach our future RE learning.
